quarto doc template

Robin Doe

9/1/25

Quarto docs operate much the same way rmarkdown does.

````
```{r}
library(reticulate)
```
````

````
```{python}
import numpy as np
```
````

````
```{python}
a = np.random.rand(50,50)
```
````

````
```{r}
image(py$a)
```
````
